

## MATERIAL SAFETY DATA SHEET

### SECTION 1 - CHEMICAL PRODUCT & COMPANY IDENTIFICATION

Pfizer Consumer Healthcare  
Pfizer Inc  
201 Tabor Road  
Morris Plains, New Jersey 07950

**Emergency telephone** (973) 385-2000  
**Hours of operation** 24 hours

**Product name** Corn Huskers® Lotion  
**Therapeutic use** Skin lotion  
**Description** Translucent, colorless lotion with a characteristic scent

### SECTION 2 - COMPOSITION/INFORMATION ON INGREDIENTS

<u>Ingredient</u>	<u>CAS Number</u>	<u>Amount</u>
Water	7732-18-5	Proprietary
Glycerin*	56-81-5	<10.0%
Ethyl alcohol, SDA 40*	Mixture	<5.0%
Sodium calcium alginate	Mixture	Proprietary
Oleyl sarcosine	Not assigned	Proprietary
Methylparaben	99-76-3	Proprietary
Guar gum	9000-30-0	Proprietary
Triethanolamine*	102-71-6	Proprietary
Calcium sulfate*	7778-18-9	Proprietary
Fragrance*	Not assigned	Proprietary
Calcium chloride (anhydrous)*	10043-52-4	Proprietary
Fumaric acid*	110-17-8	Proprietary
Boric acid	10043-35-3	Proprietary

\*Hazardous

**Note:** Ingredient(s) indicated as hazardous have been assessed under US OSHA Hazard Communication Standard for workplace safety (29 CFR 1910.1200).

### SECTION 3 - HAZARDS IDENTIFICATION

**Signal word** CAUTION!  
**Statements of hazard** MAY CAUSE EYE AND SKIN IRRITATION.  
**Eye effects** May cause irritation based on components.  
**Skin effects** May cause irritation based on components.

---

### SECTION 3 - HAZARDS IDENTIFICATION ... continued

---

<b>Inhalation effects</b>	Not an expected route of exposure. Exposure to high concentrations of mist may cause irritation based on components. An Occupational Exposure Limit has been established for one or more of the ingredients (see Section 8).
<b>Ingestion effects</b>	Not an expected route of exposure. However, based on components, ingestion of large quantities may result in nausea, vomiting, diarrhea, and gastrointestinal irritation.
<b>Other potential health effects</b>	Chronic ingestion of ethanol has been associated with an increased incidence of cancer, liver cirrhosis, and congenital malformations. However, occupational handling of this product is not expected to result in relevant exposures.
<b>Additional data</b>	For a more detailed discussion of potential health hazards and toxicity see Section 11.
<b>NOTE:</b>	This document has been prepared in accordance with the US OSHA Hazard Communication Standard, which requires the inclusion of all known hazards of the product or its ingredients regardless of the potential risk. The precautionary statements and warnings included may not apply in all cases. Your needs may vary depending upon the potential for exposure in your workplace. If your workplace is regulated by OSHA, this document must be used as a part of a complete hazard-training program.

---

### SECTION 4 - FIRST AID MEASURES

---

<b>Eyes</b>	Immediately flush eyes with water for at least 15 minutes until no evidence of product remains. If irritation occurs or persists, get medical attention.
<b>Skin</b>	If irritation occurs, wash exposed area with soap and water, remove contaminated clothing and obtain medical assistance.
<b>Inhalation</b>	Remove to fresh air. If discomfort persists, get medical attention.
<b>Ingestion</b>	In the event of swallowing this material, seek medical assistance if symptoms develop. Do not induce vomiting unless directed by medical personnel. Give water to dilute unless instructed to do otherwise.

---

### SECTION 5 - FIRE FIGHTING MEASURES

---

<b>General hazard</b>	This material is not expected to support combustion.
<b>Fire fighting instructions</b>	Wear a self-contained breathing apparatus and use water spray to keep fire-exposed containers cool.
<b>Extinguishing media</b>	As for primary cause of fire.
<b>Flash point</b>	No data available

---

**SECTION 5 - FIRE FIGHTING MEASURES** ... continued

---

<b>Hazardous combustion products</b>	Not known
--------------------------------------	-----------

---

**SECTION 6 - ACCIDENTAL RELEASE MEASURES**

---

<b>General</b>	Review Sections 3, 8 and 12 before proceeding with clean up.
<b>Small spill</b>	Use absorbant material to wipe up spill and place in a sealed container for disposal. Clean spill area thoroughly.
<b>Large spill</b>	Dike, pump, or use non-combustible material to absorb spill; then place in a suitable, labeled recovery container. Close container and move it to a secure holding area.

---

**SECTION 7 - HANDLING AND STORAGE**

---

<b>General handling</b>	No special handling requirements for normal use of this material.
<b>Storage conditions</b>	Store in cool place out of sun and away from heat.
<b>Temperature range for storage</b>	Store as directed by product packaging.

---

**SECTION 8 - EXPOSURE CONTROLS/PERSONAL PROTECTION**

---

<b>Exposure limits</b>	
<u>Compound</u>	<u>Issuer</u> <u>Type</u> <u>OEL</u>
Glycerin	OSHA      TWA-8 Hr      5 mg/m <sup>3</sup> (respirable fraction)
	OSHA      TWA-8 Hr      15 mg/m <sup>3</sup> (total dust)
	ACGIH      TWA-8 Hr      10 mg/m <sup>3</sup> (mist)
Ethyl alcohol, SDA 40	ACGIH      TWA-8 Hr      1000 ppm (ethanol)
	OSHA      TWA-8 Hr      1000 ppm (ethanol)
<b>Exposure information</b>	The exposure limit(s) listed for solid components are only relevant if dust may be generated.
<b>Ventilation</b>	Keep airborne contamination levels below the exposure limits listed above in this section.
<b>Eye protection</b>	Safety glasses or goggles
<b>Skin protection</b>	Wear protective clothing when working with large quantities.
<b>Hand protection</b>	Wear gloves when working with large quantities.
<b>Respiratory protection</b>	Respirators are not required for normal use of this material. If the applicable Occupational Exposure Limit (OEL) is exceeded, wear an appropriate respirator with a protection factor sufficient to control exposures to below the OEL.

---

**SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES**

---

<b>Physical form</b>	Lotion
<b>Color</b>	Colorless
<b>Clarity</b>	Translucent
<b>Odor</b>	Characteristic odor
<b>pH</b>	6.2-6.7 @25°C
<b>Melting point</b>	No data available
<b>Vapor pressure</b>	No data available
<b>Water solubility</b>	No data available
<b>Solvent solubility</b>	No data available

---

**SECTION 10 - STABILITY AND REACTIVITY**

---

<b>Reactivity</b>	Stable
<b>Conditions to avoid</b>	None known
<b>Incompatibilities</b>	None known
<b>Hazardous decomposition products</b>	None known
<b>Hazardous polymerization</b>	Will not occur

---

**SECTION 11 - TOXICOLOGY INFORMATION**

---

<b>Toxicology summary</b>	The information included in this section describes the potential hazards of the individual ingredients.
---------------------------	---

**Acute toxicity**

<u>Compound</u>	<u>Type</u>	<u>Route</u>	<u>Species</u>	<u>Dosage</u>
Glycerin	LD <sub>50</sub>	Oral	Mouse	4090 mg/kg
	Irritation	Dermal	Rabbit	500mg:Mild
	Irritation	Ocular	Rabbit	500mg:Mild
	LC <sub>50</sub> 1H	Inhalation	Rat	>570 mg/m <sup>3</sup>
Ethanol	Irritation	Ocular	Rabbit	500mg:Severe

**Eye** May cause eye irritation based on components. See Acute toxicity table.

**Skin** May cause skin irritation based on components. See Acute toxicity table.

---

**SECTION 11 - TOXICOLOGY INFORMATION** ... continued

---

<b>Inhalation</b>	May cause respiratory tract irritation during the manufacturing process based on components. High vapor concentrations of ethanol may cause drowsiness and irritation.
<b>Ingestion</b>	See table above for LD <sub>50</sub> values for individual ingredients.
<b>Mutagenicity</b>	Not determined for this product.
<b>Subchronic effects</b>	Not determined for this product.
<b>Chronic toxicity</b>	Chronic ingestion of ethanol has been associated with an increased incidence of cancer, liver cirrhosis, and congenital malformations. However, occupational handling of this product is not expected to result in relevant exposures.
<b>Carcinogen status</b>	Carcinogenicity of the mixture has not been determined. Alcohol is listed as a carcinogen by IARC. The IARC monograph examining the carcinogenic potential of ethanol examined only alcoholic beverages. No other components are listed as carcinogens by IARC, US OSHA or NTP.
<b>Reproductive effects</b>	Exposure to large doses of ethanol during gestation caused effects on reproduction and some fetotoxicity and growth retardation in mice, rats, and rabbits. However, occupational handling of this product is not expected to result in relevant exposures.
<b>Teratogenicity</b>	Not determined for this mixture. Developmental effects have been reported in humans and experimental animals given large doses of ethanol. However, occupational handling of this product is not expected to result in relevant exposures.

---

**SECTION 12 - ECOLOGICAL INFORMATION**

---

<b>Environmental overview</b>	The environmental characteristics of this material have not been fully evaluated. Releases to the environment should be avoided.
-------------------------------	--

---

**SECTION 13 - DISPOSAL INFORMATION**

---

<b>Disposal procedure</b>	Observe all local and national regulations when disposing of this material.
---------------------------	---

---

**SECTION 14 - TRANSPORTATION INFORMATION**

---

<b>General shipping instructions</b>	Not regulated for transport under USDOT, EUADR, IATA, or IMDG regulations.
--------------------------------------	--

---

**SECTION 15 - REGULATORY INFORMATION**

---

<b>EU Classification</b>	Not classified
--------------------------	----------------

---

**SECTION 15 - REGULATORY INFORMATION** ... continued

---

<b>TSCA status</b>	Not listed
<b>SARA section 302</b>	No
<b>SARA section 313</b>	No
<b>California Proposition 65</b>	Not listed
<b>Canadian WHMIS</b>	This product has been classified in accordance with the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR.

---

**SECTION 16 - OTHER**

---

<b>Disclaimer</b>	<b>The information contained in this Material Safety Data Sheet is believed to be accurate, and while it is provided in good faith, it is without a warranty of any kind, express or implied.</b>
