# Section 1 - Chemical Product and Company

### Identification

Product/Chemical Name: PMC724 Part B

Date Prepared: 3/26/98

General Use: Polyurethane Elastomer

From: Eager Plastics, Inc., 3350 W. 48th Place Chicago, IL 60632 Phone (773)927-3484, FAX (773)650-5853

Emergency Contact: Chem-Tel 1-800-255-3924

Section 2 - Composition / Information on Ingredients				
Component	CAS Number	ACGIH TWA	Exposure Limits OSHA PEL	Weight Percent (%)
Butyl benzyl phthalate	85-68-7	None Established	None Established	30-35
New Jersey Trade Secret #221290880- 5003P	-	None Established	None Established	30-35
Kaolin	1332-58-7	2 mg/m <sup>3</sup> as dust	15 mg/m <sup>3</sup> as dust	15-20
Silica, Quartz	14808-60-7	0.1 mg/m <sup>3</sup> as dust	50 mg/m <sup>3</sup> as dust	15-20
Titanium Dioxide	13463-67-7	10mg/m <sup>3</sup> as dust	15mg/m <sup>3</sup> as dust	1-3
Phenylmercuric neodecanoate	26545-49-3	0.01 mg/m <sup>3</sup>	0.01 mg/m <sup>3</sup>	0.1

## Section 3 - Hazards Identification

### **HMIS**

H 201

F R

## Potential Health Effects

Primary Entry Routes: Dermal

Target Organs: pancreas, liver, thyroid and eyes.

**Acute Effects** 

Inhalation: Vapors, which are not significant unless heated or sprayed can cause irritation to respiratory tract.

Eye: May cause irritation, redness, tearing.

Skin: Contact will cause irritation and reddening swelling.

Ingestion: Effects are unknown.

Carcinogenicity: IARC lists Silica, quartz dust, as a probable carcinogen.

Medical Conditions Aggravated by Long-Term Exposure: Pre-existing skin disorders.

**Chronic Effects of Overexposure:** 

This product contains an organo-mercury catalyst below the reportable level required by OSHA 1910.1200; however, due to the chronic toxicity of organo-mercury compounds careful handling of this product is required.

## Section 4 - First Aid Measures

Inhalation: Remove source(s) of contamination and move victim to fresh air.

Eye Contact: Flush eyes with plenty of water. If irritation persists, seek medical attention.

Skin Contact: In case of skin contact, wash thoroughly with soap and water; remove contaminated clothing and launder before reuse; seek medical attention if rash develops.

Ingestion: Do not induce vomiting unless instructed by a physician. Contact physician immediately

After first aid, get appropriate in-plant, paramedic, or community medical support.

# Section 5 - Fire-Fighting Measures

Flash Point: >300 °F (150°C) Flash Point Method: COC

Flammability Classification: Non-Flammable

Extinguishing Media: Water Fog, Dry Chemical, and Carbon Dioxide Foam

Unusual Fire or Explosion Hazards: None

Fire-Fighting Instructions: Fire fighters should wear self-contained breathing apparatus. Do not release runoff from fire control methods to sewers or waterways.

Fire-Fighting Equipment: Because fire may produce toxic thermal decomposition products, wear a self-contained breathing apparatus (SCBA) with a full facepiece operated in pressure-demand or positive-pressure mode.

## Section 6 - Accidental Release Measures

Spill /Leak Procedures: Dike and contain spill; absorb or scrape up excess into suitable container for disposal.

Stop or reduce discharge if it can be done safely.

Regulatory Requirements: Follow applicable OSHA regulations (29 CFR 1910.120).

## Section 7 - Handling and Storage

Handling Precautions: Minimize breathing of vapors and avoid prolonged or repeated contact with skin. Wear proper protective equipment. If ventilation is not sufficient, wear proper respiratory equipment. Use good general housekeeping procedures.

Storage Requirements: Store in cool dry, well-ventilated area.

# Section 8 - Exposure Controls / Personal Protection

### **Engineering Controls:**

Ventilation: Provide general or local exhaust ventilation systems to maintain airborne concentrations below OSHA PELs (Sec. 2). Local exhaust ventilation is preferred because it prevents contaminant dispersion into the work area by controlling it at its source.

#### **Administrative Controls:**

Respiratory Protection: Seek professional advice prior to respirator selection and use. Follow OSHA respirator regulations (29 CFR 1910.134) and, if necessary, wear an MSHA/NIOSH-approved respirator. Select respirator based on its suitability to provide adequate worker protection for given working conditions, level of airborne contamination, and presence of sufficient oxygen. For emergency or nonroutine operations (cleaning spills, reactor vessels, or storage tanks), wear an SCBA. Warning! Air-purifying respirators do not protect workers in oxygen-deficient atmospheres. If respirators are used, OSHA requires a written respiratory protection program that includes at least: medical certification, training, fit testing, periodic environmental monitoring, maintenance, inspection, cleaning, and convenient, sanitary storage areas.

Protective Clothing/Equipment: Wear chemically protective gloves, boots, and aprons to prevent prolonged or repeated skin contact. Wear protective eyeglasses or chemical safety goggles, per OSHA eye- and face-protection regulations (29 CFR 1910.133). Contact lenses are not eye protective devices. Appropriate eye protection must be worn instead of, or in conjunction with contact lenses.

Comments: Never eat, drink, or smoke in work areas. Practice good personal hygiene after using this material, especially before eating, drinking, smoking, using the toilet, or applying cosmetics

# Section 9 - Physical and Chemical Properties

Physical State: Liquid

Appearance: White viscous liquid

Odor: Characteristic odor

Vapor Pressure: None (Polymeric Resin)

Vapor Density (Air=1): >1

Specific Gravity (H<sub>2</sub>O=1, at 4 °C): 1.4

Water Solubility: Negligible:

**Boiling Point:** None (Polymeric Resin)

% Volatile: Nil

Freezing/Melting Point: None Determined

Viscosity: 90 poise

Evaporation Rate: None (Polymeric Resin)

## Section 10 - Stability and Reactivity

Stability: PMC-724 Part B is stable at room temperature in closed containers under normal storage and handling

conditions.

Polymerization: Hazardous polymerization can not occur. Chemical Incompatibilities: Strong acids and oxidizers.

Conditions to Avoid: Avoid contamination with water and other materials that react with amines. Thermal Decomposition Products: Oxides of nitrogen, carbon monoxide and carbon dioxide

## **Section 11- Toxicological Information**

## **Toxicity Data:**

Acute Inhalation Effects: None established

Reproductive Toxicity: None Established

Acute Oral Effects: None Established

Mutagenicity: None Established Teratogenicity: None Established Sensitization: None Established

## **Section 12 - Ecological Information**

#### None Established

# Section 13 - Disposal Considerations

Disposal: This material contains a hazardous constituent as identified in RCRA, Title 40 CFR 261, Appendix VIII and must be disposed of in accordance with applicable Federal, state, and local regulations.

# Section 14 - Transport Information
