LIQUID NAILS ADHESIVE FOR PROJECTS & CONSTRUCTION

LN601

ICI Paints North America

(ANSI Section 7)

prepared 12/03/01

925 Euclid Avenue Cleveland, Ohio 44115

EMERGENCY TELEPHONE NO. (800) 545-2643

HANDLING AND STORAGE (ANSI Section 3)

MATERIAL SAFETY DATA SHEE1

Handling and storage: Store below 80f. Keep away from heat, sparks and open flame.

Other precautions: Use only with adequate ventilation. Do not take internally. Keep out of reach of

Ventilation: Provide dilution ventilation or local exhaust to prevent build-up of vapors. Use explosion

Personal protective equipment: Eye wash, safety shower, safety glasses or goggles. Impervious

ANSI Section 10)

Under normal conditions: Stable see section 5 fire fighting measures

Materials to avoid: Oxidizers, acids. Styrene monomer

Conditions to avoid: Elevated temperatures, contact with oxidizing agent, sparks, open flame, ignition

Hazardous polymerization: Will not occur

TOXICOLOGICAL INFORMATION

(ANSI Section 11)

permanent brain and nervous system damage. Intentional misuse by deliberately concentrating Supplemental health information: Contains a chemical that may be absorbed through skin. Notice and inhaling the contents may be harmful or fatal. Other effects of overexposure may include reports have associated repeated and prolonged occupational overexposure to solvents with

known cause of silicosis, a noncancerous lung disease. The national toxicology program (NTP) Carcinogenicity: Contains crystalline silica which is considered a hazard by inhalation. IARC has classified crystalline silica as carcinogenic to humans (group 1). Crystalline silica is also a has classified crystalline silica as a known human carcinogen. toxicity to central nervous system

Reproductive effects: No reproductive effects are anticipated

Feratogenicity: No teratogenic effects are anticipated Mutagenicity: No mutagenic effects are anticipated

ECOLOGICAL INFORMATION

(ANSI Section 12)

(ANSI Section 13)

No ecological testing has been done by ICI paints on this product as a whole.

DISPOSAL CONSIDERATIONS

Waste disposal: Dispose in accordance with all applicable regulations. Avoid discharge to natural

children. Avoid contact with skin and eyes, and breathing of vapors. Wash hands thoroughly after handling, especially before eating or smoking. Keep containers tightly closed and upright when not in use. Empty containers may contain hazardous residues. Ground equipment when transferring to prevent accumulation of static charge.

(ANSI Section 8) EXPOSURE CONTROLS/PERSONAL PROTECTION

Eye contact: Irritation of eyes. Prolonged or repeated contact can cause conjunctivitis, blurred vision,

Skin contact: Irritation of skin. Prolonged or repeated contact can cause dermatitis, defatting

Ingestion: Ingestion may cause lung inflammation and damage due to aspiration of material into

tearing of eyes, redness of eyes, severe eye irritation.

depression, intoxication, difficulty of breathing, convulsions, paralysis, cardiac failure, death.

Medical conditions aggravated by exposure: Eye, skin, respiratory disorders lung disorders

respiratory disorders

vomiting, diarrhea, gastro-intestinal disturbances, abdominal pain, central nervous system

lungs, drowsiness, dizziness and/or lightheadedness, headache, uncoordination, nausca,

anesthetic effect or narcosis, difficulty of breathing, convulsions, loss of consciousness, death.

uncoordination, nausea, vomiting, coughing, central nervous system depression, intoxication,

Inhalation: Irritation of respiratory tract. Prolonged inhalation may lead to loss of appetite, mucous

Primary route(s) of exposure: Inhalation, skin contact, eye contact, ingestion.

HAZARDS IDENTIFICATION

Paints

membrane irritation, fatigue, drowsiness, dizziness and/or lightheadedness, headache,

level of protection by conducting appropriate air monitoring. Consult 29CFR 1910.134 For selection Respiratory protection: Control environmental concentrations below applicable exposure standards ousfitted with organic vapor cartridges and paint spray (dust/mist) prefilters. Determine the proper NIOSH/MSHA (Canadian 294.4) Approved elastomeric sealing- surface facepiece respirator when using this material. When respiratory protection is determined to be necessary, use a of respirators (Canadian 294.4).

proof equipment. Use non-sparking equipment.

gloves, impervious clothing.

STABILITY AND REACTIVITY

Get emergency medical

attention. Have trained person give oxygen if necessary. Get medical help for any breathing

Restore and support continued breathing.

Inhalation: Remove to fresh air. FIRST-AID MEASURES

difficulty

Skin contact: Flush from skin with water. Then wash thoroughly with soap and water. Remove Eye contact: Flush immediately with large amounts of water, especially under lids for at least 15

contaminated clothing. Wash contaminated clothing before re-use.

(ANSI Section 4)

FIRE-FIGHTING MEASURES

minutes. If irritation or other effects persist, obtain medical treatment.

Ingestion: If swallowed, obtain medical treatment immediately.

(ANSI Section 5)

may burst if exposed to extreme heat or fire. May decompose under fire conditions emitting irritant temperatures. Vapors are heavier than air and may travel long distances to a source of ignition and Fire extinguishing media: Dry chemical or foam water fog, Carbon dioxide. Closed containers may flash back. Vapors can form explosive mixtures in air at elevated temperatures. Closed containers explode when exposed to extreme heat or fire. Vapors may ignite explosively at ambient and/or toxic gases.

Fire fighting procedures: Water may be used to cool and protect exposed containers. Firefighters should use full protective clothing, eye protection, and self-contained breathing apparatus

Hazardous decomposition or combustion products: Carbon monoxide, carbon dioxide, toxic gases.

Oxides of calcium

ACCIDENTAL RELEASE MEASURES

(ANSI Section 6)

collected material in proper container. Complete personal protective equipment must be used during salvage vessels. Use absorbent to pick up excess residue. Keep salvageable material and rinse water cleanup, Large spills - shut off leak if safe to do so. Dike and contain spill. Pump to storage or Steps to be taken in case material is released or spilled: Comply with all applicable health and environmental regulations. Eliminate all sources of ignition. Ventilate area. Ventilate area with explosion-proof equipment. Use non-sparking tools. Evacuate all unnecessary personnel. Place out of sewers and water courses. Small spills - use absorbent to pick up residue and dispose of

ICI Paints shall not be responsible for the use of this information, or of any product, method or apparatus mentioned and you must make your own determination of its suitability and completeness for your own use, The information contained herein is based on data available at the time of preparation of this data sheer which ICI Paints believes to be reliable. However, no warranty is expressed or implied regarding the accuracy of this for the protection of the environment, and the health and safety of your employees and the users of this material.

Complies with OSHA hazard communication standard 29CFR1910.1200

REGULATORY INFORMATION

(ANSI Section 15)

As of the date of this MSDS, all of the components in this product are listed (or are otherwise exempt from listing) on the TSCA inventory. This product has been classified in accordance with the hazard criteria of the CPR (controlled products regulations) and the MSDS contains all the information required by the CPR.
